

Introducing

The Future of Gaming!

Purculate International

"A Boutique Tech Company"

Note: The Wilson-Hairston Family Trust Non-Disclosure Agreement supercede this non-disclosure

Non-Disclosure Agreement

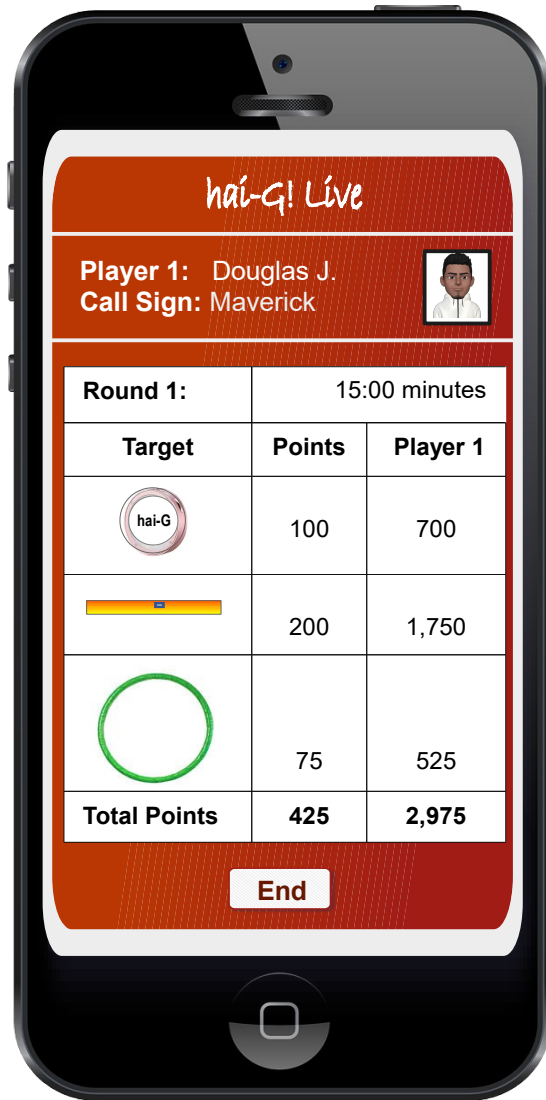

The purpose of the attached document(s) are to introduce Purculate International LLC, the vision and mission of the company, and its boutique tech collection with the intent to obtain business support, partnerships, and or investors. In order to achieve this goal, valuable trade secrets and/or confidential or proprietary information may be disclosed. Confidential or proprietary information is defined as all content, concepts, designs, business models, diagrams, process maps, business plans, project plans, milestones, data, future plans, and related information which is disclosed by one party to the other party electronically, printed, or orally.

By viewing the attached content, it confirms your consent to this agreement, accepting full responsibility under the US and foreign Patent and Copyright laws, Non-Disclosure, Non-Competition, and Privacy Agreements inherent, implied and stated, to not disclose trade secrets, confidential or proprietary information, nor participate in related derivatives of concepts or designs nor participate in related development, and to take all necessary steps to ensure the information shared between the aforementioned parties are both protected and secured.

Further, you agree to safeguard the trade secrets, confidential or proprietary information from the guises of public domain and or persons or entities not legally bound under this rule to maintain its confidentiality. If the acquisition of third party resources are required for completion of this purpose, separate non-disclosures, non-competition, and confidentiality agreements must be agreed upon by parties in this agreement and such documents completed prior to their procurement and use.

This agreement expands the scope of any pre-existing agreements made between the parties identified in this agreement; however, it prohibits any agreements or exceptions made by any parties identified with any individual, employee, third party, or general claims of protection made by you, your organization or company, any individual, employee, and third parties upon acceptance of this agreement. Therefore, disclosure to third parties is strictly prohibited without the consent of Sandra Motley and owners of Purculate International in writing.

As stated, proprietary information, plans, content, concepts, and any derivatives of materials submitted by Sandra Motley, owners of Purculate International, or the Chief Executive Officer, Purculate International LLC, in any form verbally, written, or electronic is covered under this agreement, supersede any other claims, and cannot be used in any form, to include derivatives of design, alterations of concepts or to consult with other businesses for enhancement by you, your organization or affiliations, individuals, employees, or third parties under any circumstances. All information provided under this NDA is covered by U.S. and foreign patent and copyright laws, implied, inherent, and stated, as well as other applicable state laws, effective upon receipt.

What is hai-G?

hai-G is an exciting new gaming system we are developing that we've coined as "transformational gaming." Our device use video gaming technology integrated with sensors and tags to offer owners and prospective buyers of remote controlled drones, cars, and trucks with the excitement of gaming outside of the constraints of electronic frames. This device expand the use case of these products and the environments in which they can be enjoyed, producing a "live" gaming experience worthy of a rock star concert with the right speakers!

hai-G: The Experience!

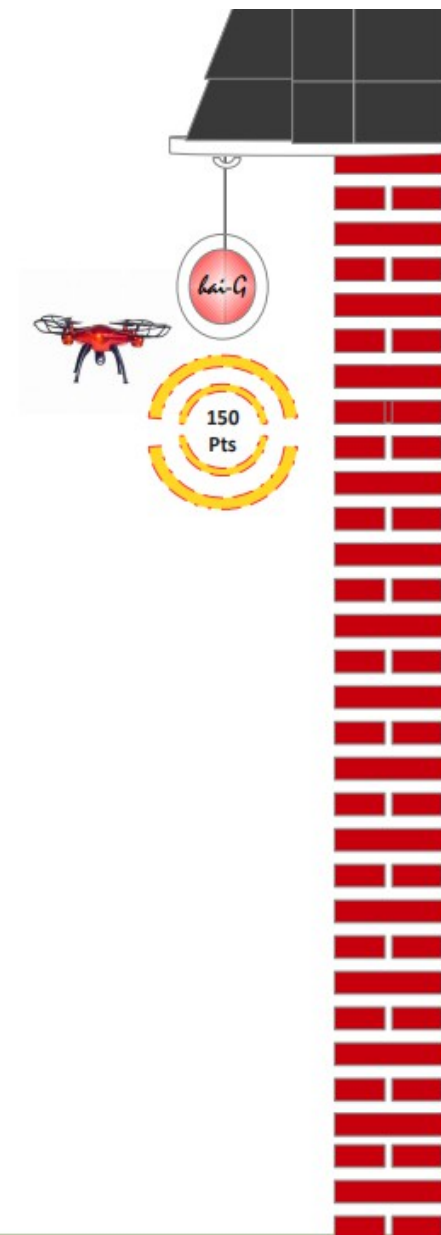

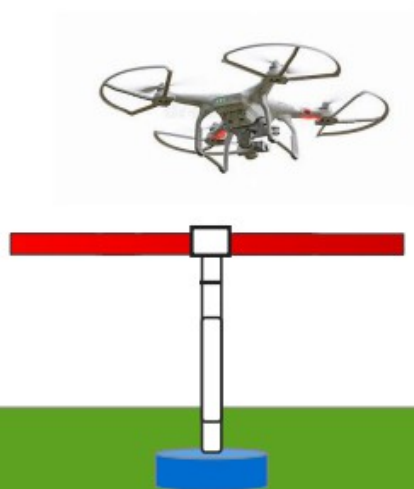

The hai-G gaming system is managed by mobile apps for use with Smartphones and other handheld gaming devices. It was designed for use both indoors and outdoors, day and night with its glow-in-the dark material and embedded lights. Below are some features that will provide users with hours of fun!

- * Single or multi-player gaming
- * Management of player stats & ranking
- * Flexibility to expand the course with new targets
- * Ease of use with phone or wireless speakers
- * Management of playing rounds
- * Selection of point-sound activated targets
- * Adjustable target point values
- * USB speaker connectivity via electronic devices

Future Markets With *haí-q*!

Future Markets With hai-G!

hai-G is at the epicenter of growth across three (3) industries: gaming, UAV / drones, and RC cars / trucks manufacturing. Each have a projected CAGR between 10 to 14% over the next five (5) years.

*According to the FAA, there are an estimated 1.48 million existing UAV / drone owners and millions of RC car and truck owners worldwide.

*hai-G is positioned to sell its gaming device directly to existing and future consumers of these products, and via exclusive contracts with each manufacturer with their product.

hai-G Revenue Model

sUAV / Drones Standard Pack	RC Vehicle Standard Pack
\$14.99	\$9.99

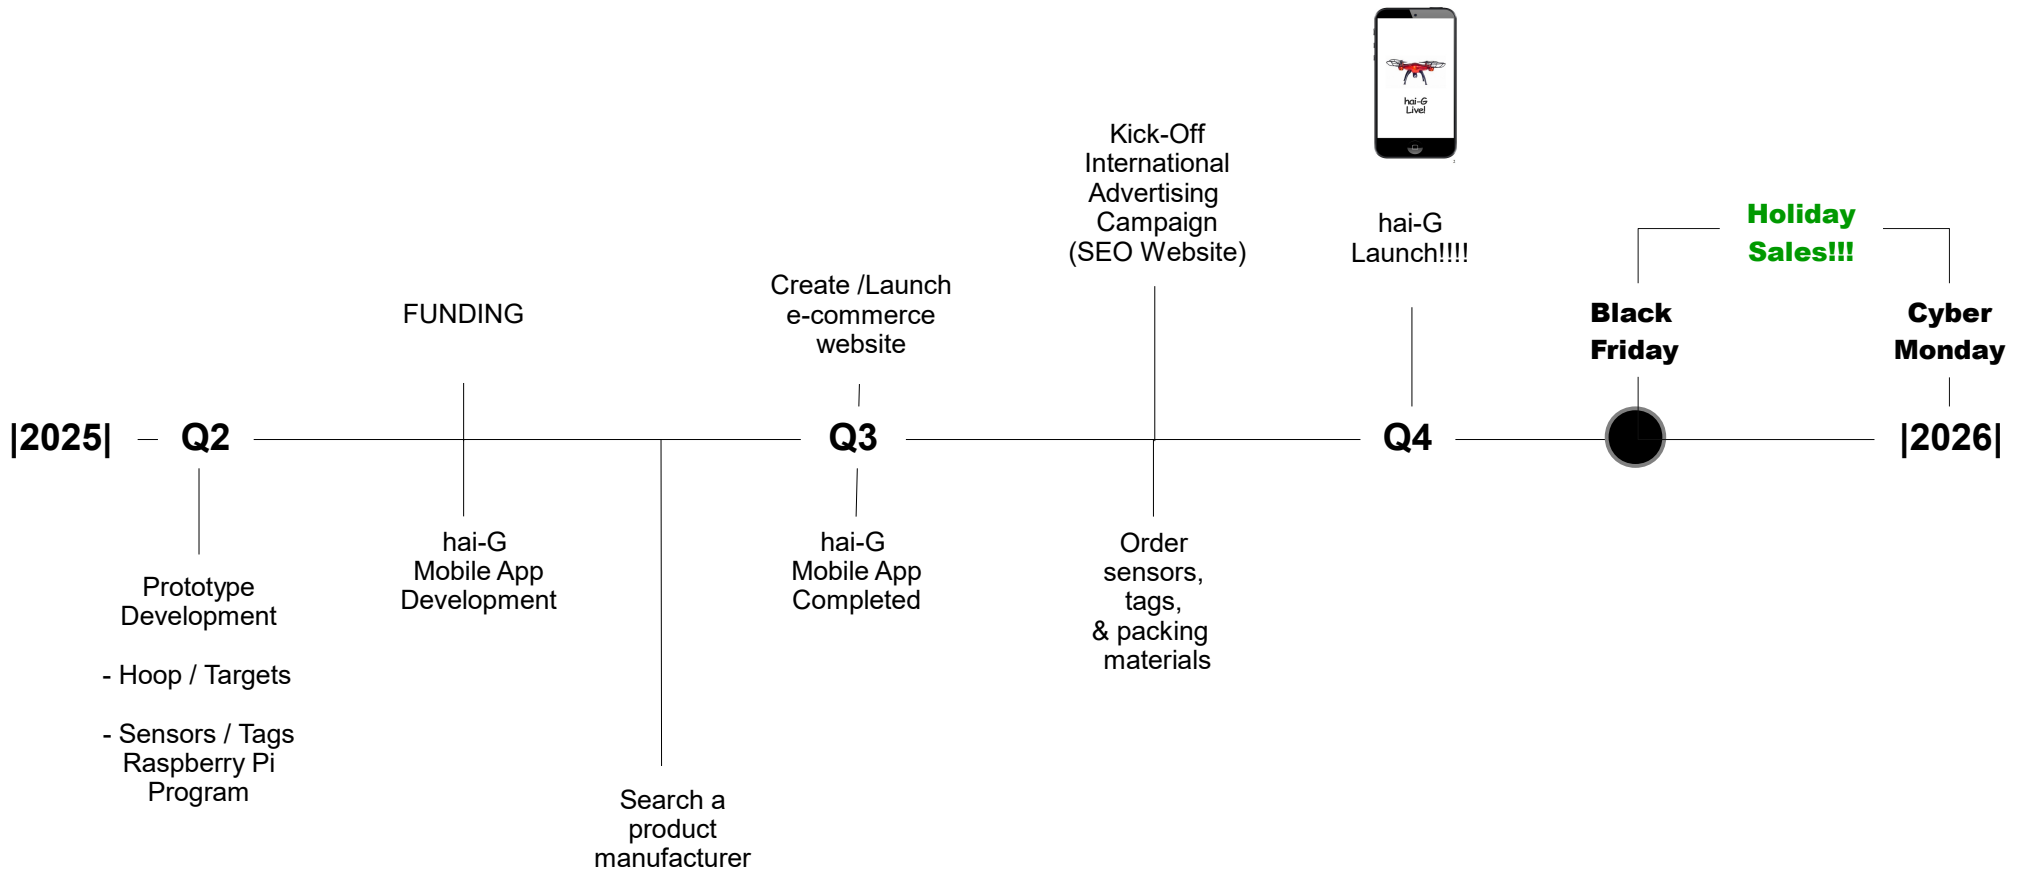

Independent Sales

1. hai-G will sale its products as two (2) system packages.
2. Expansion targets: Bars, discs, and mats will be sold separately between \$4.99 and \$6.99.

UAV / Drone & RC Vehicle Exclusive Contracts

1. Exclusive contract with UAV / Drone manufacturer
2. Exclusive contract with RC vehicle manufacturer

The Next Steps

hai-G

Financial Forecast

(See attached)

Critical Path Launch Issues

- #1 Funding:** The critical path to launch hai-G is funding the mobile app. It is estimated to cost up to \$60,000 to develop the mobile app.
- #2 Manufacturing:** Initially, we will outsource target manufacturing to achieve our production goals. Later we will transition to a hybrid approach, outsourcing some manufacturing supported with in-house light manufacturing using 3D printers.
- #3 Timeline :** Our goal is to launch hai-G in by the end of the third quarter. Sensors, tags, and product raw materials must be received by October 20th for packaging and assembling.
