Under the watchful eye of the architectural "Crown" of an African Queen in the background....

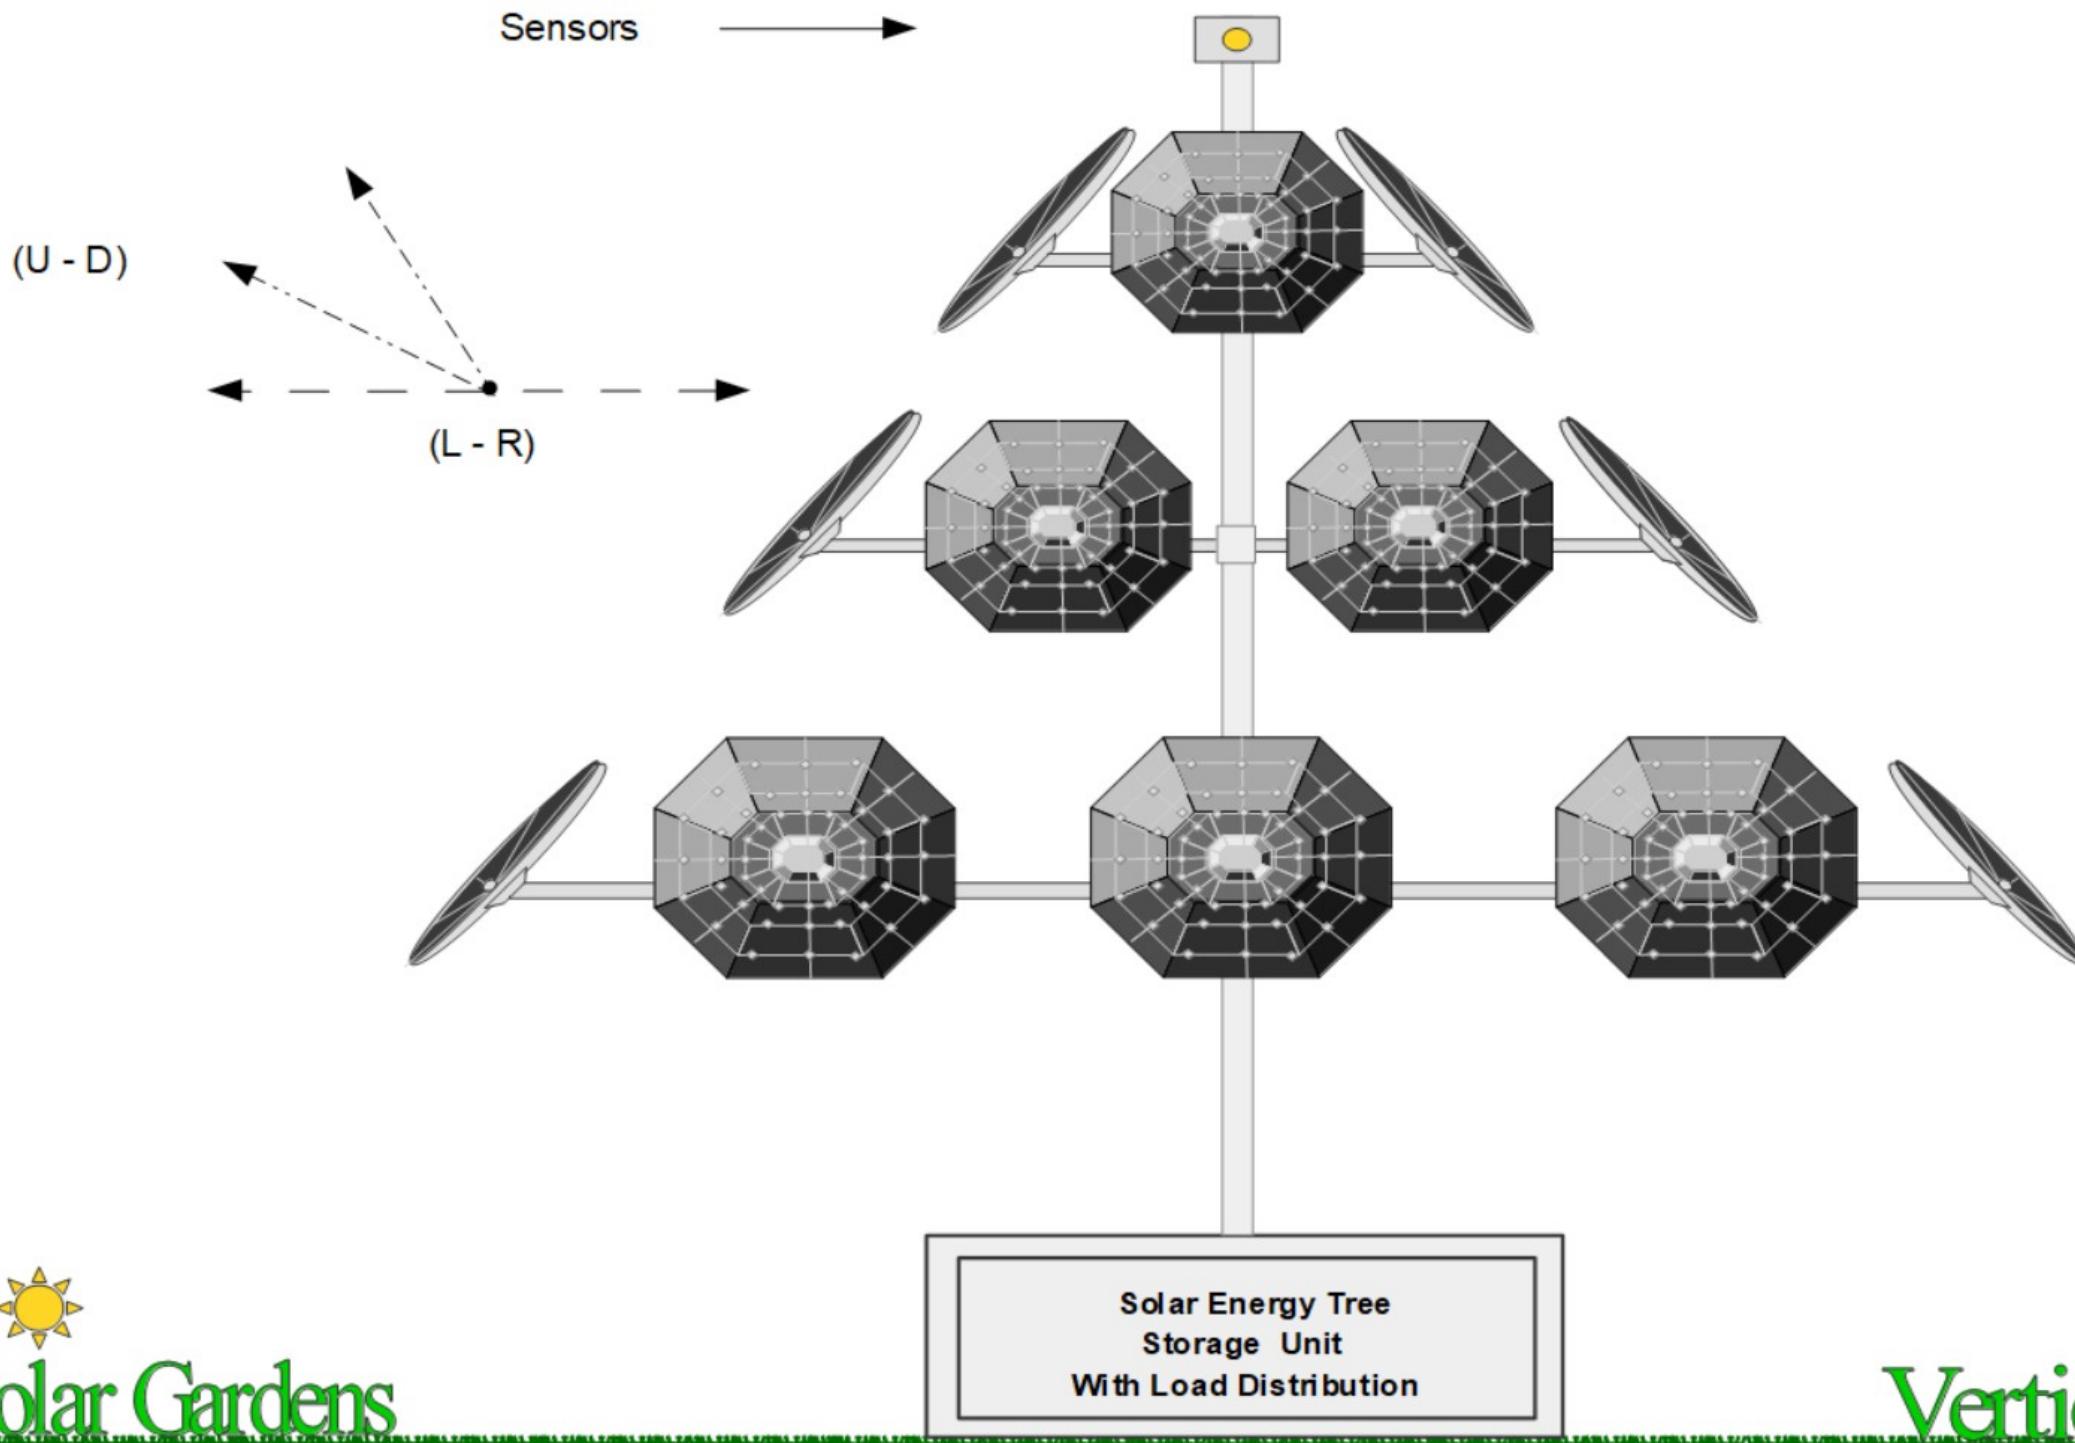

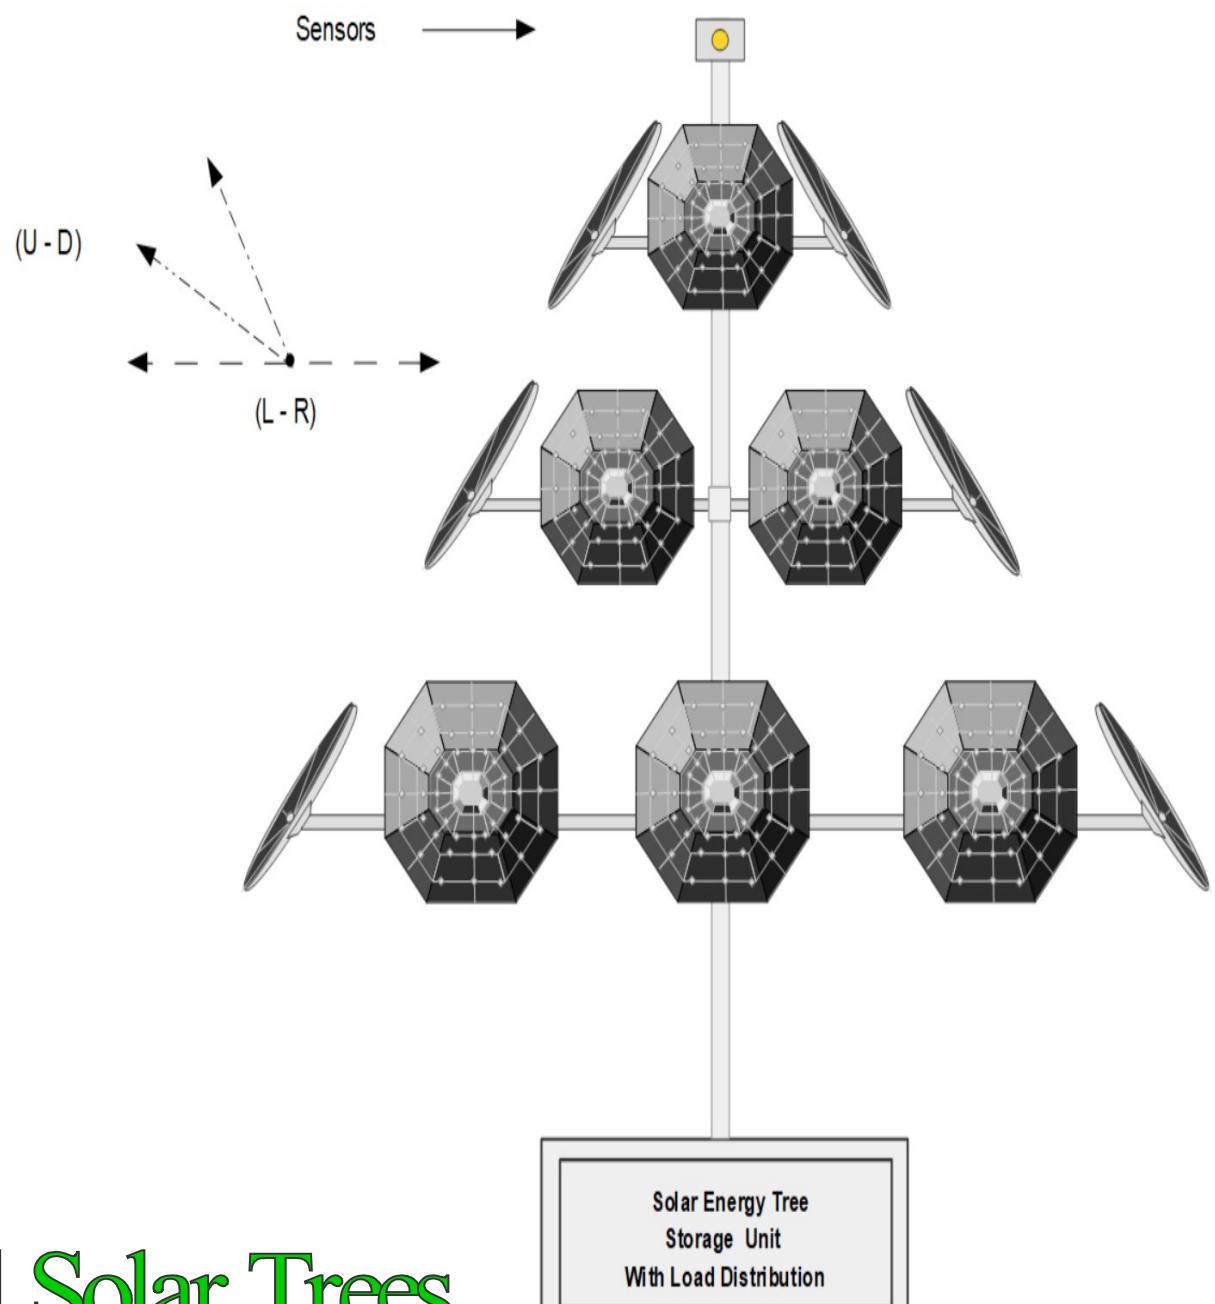

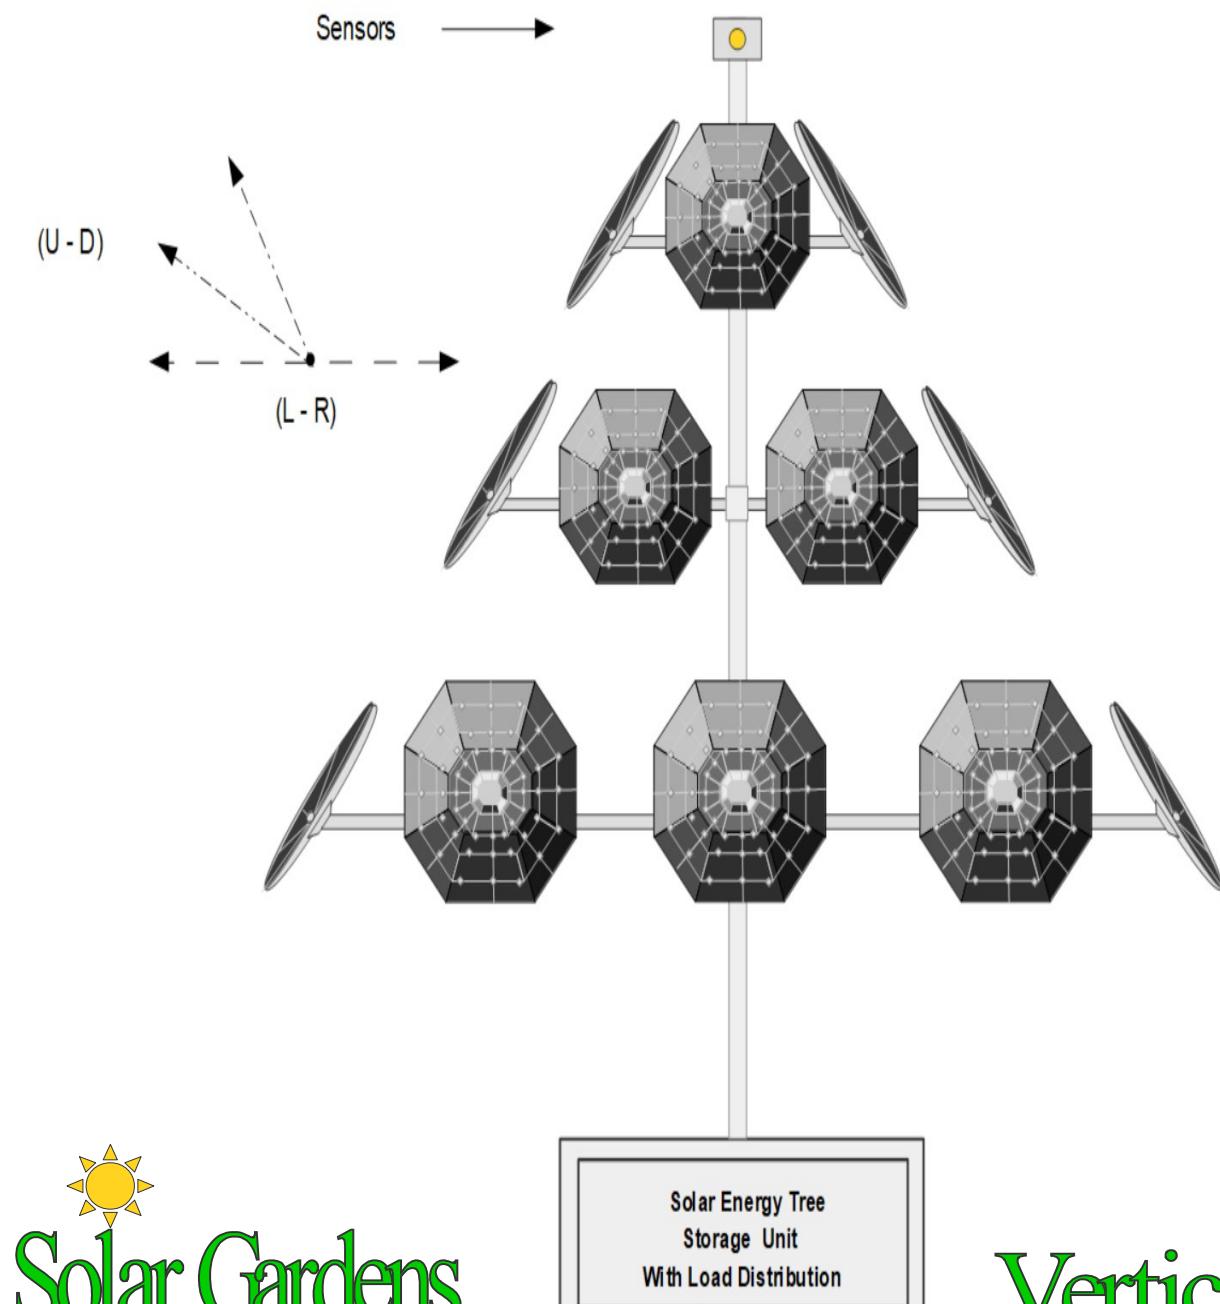

Inspired by stadium lighting on the expansive historic and cultural grounds,

The future of Solar - Re-Imagined...

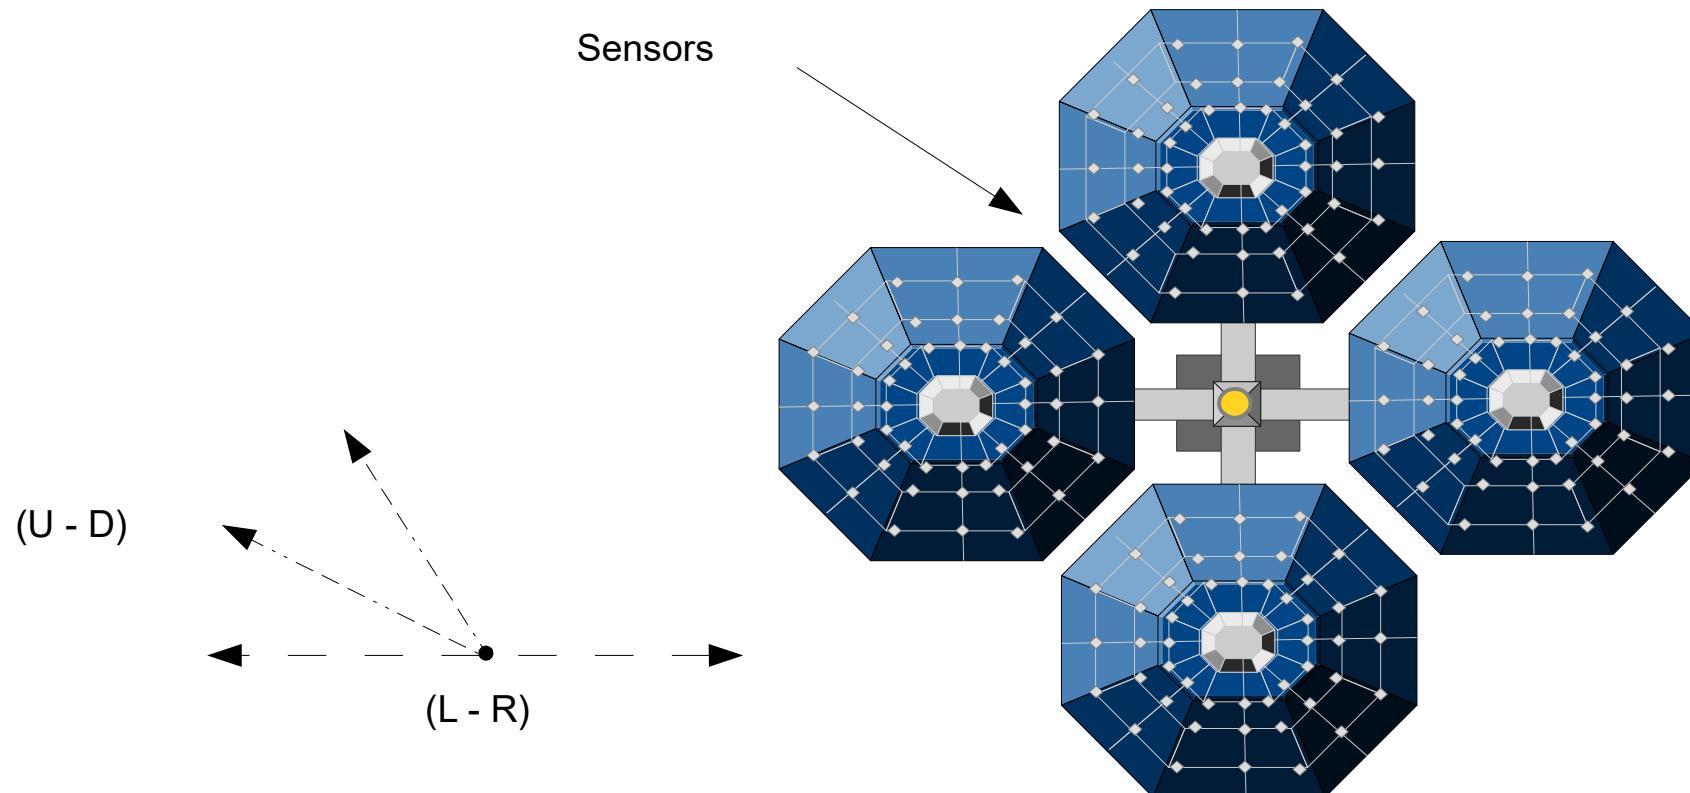

A wide-angle photograph of a city skyline at sunset. The sky is filled with large, billowing clouds colored in shades of orange, yellow, and pink. In the foreground, there are several lower-rise buildings and houses with red roofs. The middle ground is dominated by a dense cluster of high-rise apartment buildings of various heights and architectural styles, all illuminated by the warm sunlight. The overall atmosphere is one of a bustling urban environment.

Solar Energy Canopy - Large

L - R

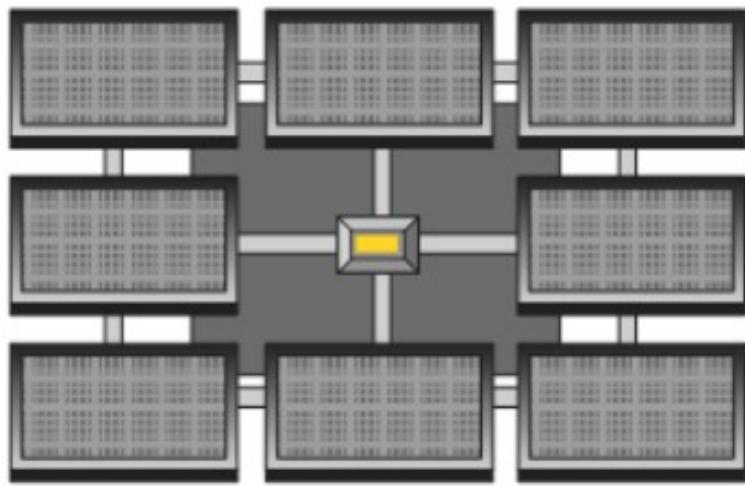

A horizontal stack of 10 solar panels connected in series. Each panel is represented by a rectangle with a grid pattern. The stack is connected to a central horizontal bus bar. A small rectangular sensor unit with a yellow circular light is positioned above the stack. A dashed arrow labeled "L - R" points to the right side of the stack. The entire assembly is mounted on a black base.
